OVERVIEW (MSP)

ACADEMIC SESSION 2024-25

Facilitator's Name	Grade	Subject	Lesson Name	Date
	VII	English	The Bear Story	

Content	Concept	Knowledge
Introduction: Domesticated animals – Big beasts, bigger hearts Comprehension of the Chapter Exercises and Class Discussion Group Presentation	Love and affection can truly change the savagery of animal. Yet one must always be careful. This chapter dwells on the issue of domestication of a wild animal. The surprising end in the chapter provides insight into the dangers that could have occurred and how fortunate circumstances might be the reason for its diversion.	Students observe the history of domestication throughout the ages. Students infer the values associated with loyalty and freedom. Students evaluate the merits and demerits of domestication. Students identify that precautionary measures need to be taken while interacting with a wild animal. Student improve their analytical skills through exercises and class discussion. Students expand their collaborative and presentation skills through Group Presentation.

		Students improve their reading skills through comprehension of the chapter. Students expand their research skills through collecting data for their research topics.
--	--	--

Competences	Character	Action
3C Competence: Balanced Milestone: Communicative Skills	3C Character: Caring/Empathetic Milestone: Social Skills Sustainable Development Goals (SDG): SDG Goal No. 15: Life on Land The story promotes care and protection for animals, aligning with SDG 15, which emphasizes the need to protect, restore, and promote sustainable use of terrestrial ecosystems and biodiversity. 	Students go to the zoo to observe wild animals and compare their life with the domesticated animals in their neighborhood.

Sports Education Program	-
Visual Arts & Performing Arts	-

Integration
Science (Zoology): Students explore the world of bears.

SESSION TRACKER

ACADEMIC SESSION 2024-25

Elements	English Poetry
Chapter Name	The Bear Story
No. of periods allotted	3
Sub-topics to be taught	• Introduction: Domesticated animals – Big beasts, bigger hearts • Comprehension of the Chapter • Exercises and Class Discussion • Group Presentation
Teaching Strategies	Think Pair Share, Reciprocal Teaching, Visual Learning, Class Discussion, Group Presentation
Field trips <i>(If any) (Yes/ No)</i>	-
Lab activities <i>(If any) (If yes, please name)</i>	-

Integration of technology by the facilitator/ students	Video Link, PPT
Domain/Levels of Bloom's Taxonomy targeted	Remembering, Understanding, Applying, Analysing, Evaluating and Creating
Differentiated Learning Multiple Intelligences planned to be incorporated	<u>(To be filled in by the school subject teacher after diagnosis assessment)</u>

- Co-scholastic integration consists of performing arts, visual arts and physical education.
- Use of technology by the facilitator and the students is mandatory.
- The report must be submitted 2 weeks before the beginning of chapter.
- Carefully study the format before filling and submitting.
- Columns may be added by the facilitator if required. However, no column can be deleted.

THE ESSENTIAL ELEMENTS OF SESSION PLAN

ANTICIPATORY SET	INSTRUCTIONAL OBJECTIVE PURPOSE	❖ Get learner focused ❖ To be used at - Start of lesson - Interventions - At a transition
CORE INSTRUMENTAL ELEMENT	PROVIDE INFORMATION MODELING THE INFORMATION OR PROCESS MONITOR AND ADJUST (check for understanding) GUIDED PRACTICE (during lesson)	❖ Organize basic information ❖ Simplest and clearest ❖ Respond to queries ❖ Highlight critical attributes ❖ Avoid controversies in first model ❖ Accurate and unambiguous ❖ Finally introduce non exemplars ❖ Signaled answers ❖ Choral responses ❖ Sample individual responses ❖ Massed ❖ Distributed - How much/ how long/ how often
CLOSURE	INTERNALISE LEARNING	❖ Learners must summarize learning ❖ Bridge to future learning ❖ Exercise opportunity to monitor

INDEPENDENT PRACTICE	SELF STUDY AND HOME ASSIGNMENTS	❖ Correction ❖ Feedback

SESSION PLAN
English
Ch No. 5: The Bear Story

Class & Section	VII	Subject	English
Number of Sessions	3	Duration of Session	35 Minutes
Session Number	1	Name of the Facilitator	

Topic	The Bear Story
Sub-Topic	Introduction: Domesticated animals – Big beasts, bigger hearts
Essential Learning Outcomes (ELOs)	Students will be able to: • Understand the value of freedom and the concept of loyalty. • Discern the process of domestication throughout the ages and evaluate the state of living of domesticated animals. • Recognise that precautionary measures need to be taken while interacting with wild animals. • Improve their analytical skills through exercises. • Expand their collaborative and presentation skills through Group Presentation. • Develop their reading skills through comprehension of the chapter. • Enhance their research skills.

	Students can: • Differentiate between wild animals and domesticated animals. • Evaluate the concept called domestication.
Instructional Resource(s)	Journals, Worksheet 01 (Annexure I.1), PPT 01 (Annexure II.1), Video Link 01 (Annexure III.1)
Facilitation (How/Strategies/Activities/ Tools)	• Warm up (3 min) ➤ Facilitator begins the session by asking the students: - Do you love having pets? - Can you have wild animals as pets? - Are all wild animals dangerous? ➤ Students come up with various responses. • Class Activity (23 min) ❖ <u>Visual Learning</u> ➤ Facilitator shows the class Video01 (Annexure III.1) and asks them to pay attention. ➤ Facilitator asks the students what they understood from the video. ➤ Facilitator explains that affection can reach into the hearts of any animal. ❖ <u>Collaborative Work</u> ➤ Facilitator divides the class into pairs. ➤ Facilitator introduces the strategy Think Pair Share. ➤ Facilitator hands out Worksheet01 (Annexure I.1) to the pairs and asks them to complete it in their journals.

	➤ The pairs first think individually and then discuss together and write the answers in their journals. ➤ Facilitator monitors the activity and provides assistance when required. ➤ Facilitator evaluates the journals and gives necessary feedback. • Reinforcement (9 min) ❖ <u>Visual Reinforcement</u> ➤ Facilitator shows PPT01 (Annexure II.1) to the class. ➤ He/she informs that the PPT will give them clarity on the questions given in the worksheet and about domestication. ➤ Facilitator asks students to find out the domestication of two wild animals and write down the important points in their journals as home assignment. Bloom's Taxonomy Targeted: Remembering, Understanding, Applying and Evaluating.
Sustainable Development Goal (SDG) SDG No. 13. Climate Action	Refer to Grade 7_Geography_Ch 4__Air_Curriculum Book_2024-25
Independent Practice/ (Homework)	• Students research about their respective topics from their home. • Student complete the given home assignment in their journals.
Evaluation & Reflection (Facilitator & Student reflection to be written by the Facilitator)	To be filled by the facilitator at the end of the session to evaluate the Effective Learning Outcomes.

SESSION PLAN

English

Ch No. 5: The Bear Story

Class & Section	VII	Subject	English
Number of Sessions	3	Duration of Session	35 Minutes
Session Number	2	Name of the Facilitator	

Topic	The Bear Story
Sub-Topic	Comprehension of the Chapter, Exercises
Essential Learning Outcomes (ELOs)	Students will be able to: • Understand the value of freedom and the concept of loyalty. • Discern the process of domestication throughout the ages and evaluate the state of living of domesticated animals. • Recognise that precautionary measures need to be taken while interacting with wild animals. • Improve their analytical skills through exercises. • Expand their collaborative and presentation skills through Group Presentation. • Develop their reading skills through comprehension of the chapter. • Enhance their research skills.

	Students can: • Improve their reading skills through comprehension of the chapter. • Develop their analytical skills through exercises. • Expand their research skills as they collect data for their respective presentation topics.
Instructional Resource(s)	Supplementary Reader, Journal, Worksheet 02 (Annexure I.2)
Facilitation (How/Strategies/Activities/ Tools)	• Recap (2 min) ➤ Facilitator begins the session by inviting 1-2 students to share their home assignments with the class. • Class Activity (30 min) ❖ <u>Group Reading</u> ➤ Facilitator divides the class into groups of four members each. ➤ Facilitator introduces the strategy Reciprocal Teaching. ➤ Facilitator asks the groups to open p.52 and read till 56 of the textbook. ➤ One member acts as the summariser and summarise 1-2 paragraphs of the text. Another member acts as the questioner and ask doubts. The clarifier clarifies these doubts. The predictor anticipates what the next section is about. This process continues till the end of the chapter. ➤ Facilitator ensures that the following points are covered: - How the bear was saved by the lady. - An Immensely strong beast - can slay a cow. - Big beast but bigger heart. - Ponies and dogs playing with the bear. - Vegetarian. - Ill-tempered if kept on the chain - The bear didn't attack the lady for hitting him on the nose.

	- The bear sitting silently till evening feeling sorry for himself. - The lady scolding the bear. - The cook scolding the lady. - The loyalty of the bear. ➤ Facilitator then initiates a small class discussion on the discussion topics 1 and 2 in p. 57. ➤ Facilitator guides the discussion. • Reinforcement (3 min) ➤ Facilitator divides the class into groups (4 groups: A, B, C and D depending upon the class strength). ➤ Facilitator provides the following topics. ▪ Group A - Domestication: Pros ▪ Group B - Loyalty of the beast. Is there a necessity for precautionary measures? ▪ Group C - Animal cruelty ▪ Group D - Domestication : Cons ➤ Facilitator asks the groups to research and collect information on their respective topics. ➤ Resources could be from the internet, newspapers, journals and from elders etc. ➤ Facilitator gives Exercises (Answer the following questions) in p.57 as home assignment to be completed in the journals. Bloom's Taxonomy Targeted: Remembering, Understanding, Applying and Analysing
Independent Practice/ (Homework)	Worksheet 02 (Annexure I.2)
Evaluation & Reflection (Facilitator & Student reflection to be written by the Facilitator)	To be filled by the facilitator at the end of the session to evaluate the Effective Learning Outcomes.

SESSION PLAN
